Computer Facilities Newsletter

Faculty Computing Office Hours
Please note that the Faculty Computing office hours are from 8:30am until 5pm on Monday to Friday.
If you have IT issue outside of the office hours, you can request support by sending an email to ithelp-arts@uwa.edu.au and we will assist you as soon as we are back in the office.

Staff Changes
We’re pleased to announce that Adem Kerimofski has recently joined the Faculty Computing team. Adem has relocated to the Faculty Computing office, but can still be contacted on his 1696 extension as well as via email.
Adem will be providing administrative support to Faculty Computing whilst continuing his work for the Multimedia Centre.

Network upgrades
We will be rolling out the new equipment to buildings within the Faculty during this month. The dates for each area are listed below:

- School of Music buildings – Thursday 11th of September
- Faculty of Arts building – Thursday 18th of September
- Social Sciences buildings – Thursday 25th of September
You will receive further information on the Monday prior to the scheduled outage in your building. This notification will include the time and length of the scheduled outage.
Please keep in mind that all IT services in the affected buildings will be unavailable during the outages. These IT services include, but not limited to:
- Internet Access
- Printing
- Access to “Shares”

Change to Windows login Screen
You may have noticed that there have been some slight changes to the logon screen on Windows computers. This now shows some additional information which the Faculty Computing team can use to identify issues that may occur when you are logging onto your computer.

It is safe to ignore this information.

Tip of the Month by Anthony Pugliese

Mirroring Displays on PCs
This guide is designed to step PC users through mirroring their display, intended for use with projectors for presentations.

Step 1: Connect a VGA cable from the projector to the PC.
Step 2: Right click the Desktop Background and click “Screen Resolution”.
Step 3: On the “Screen Resolution” window that opens, click the drop down menu under the heading “Multiple Displays” and choose “Duplicate these displays”.
Step 4: Click Apply.
Step 5: When prompted, click “Keep Changes”.

Mirroring Displays on Apple Computers
This guide is designed to step Mac users through mirroring their display, intended for use with projectors for presentations.

Step 1: Connect a VGA cable from the projector to the Mac. (Note: You may need a VGA to MiniDisplay port adapter for some models)
Step 2: Click on the Apple menu at the top left of your screen and select “System Preferences”. The System Preferences window will open.
Step 3: Click on the “Displays” icon. The Display Settings window will appear.
Step 4: Click on the “Arrangement” tab and check the “Mirror Displays” box.
